GlucoTwin · Consultation evidence

Patient: 2072 | Evidence cutoff: 2021-07-15T12:40:00

Exported by: Demo clinician | Clinic: demo-clinic

Research prototype. Doctor workflow review pending. No medication or treatment recommendation.

Recorded-data and wall-clock review timestamps are labeled separately. Clinical validation and prospective benefit are not established.

Historical context and provenance

Source: ShanghaiT2DM public research dataset. Matched historical summary; exact availability dates unavailable. Untimed labs and medications excluded.

Age: 59 | Sex: Male | BMI: 25.7 | Diabetes duration: 10 years

Observed glucose and data coverage

Displayed evidence window: latest 96 available readings. No readings are interpolated.

Reading status at cutoff: ok. Native 15-minute recorded readings; future observations remain hidden. Scenario: recorded.

Observed range: 68.4–187.2 mg/dL; arithmetic mean: 116.3 mg/dL.

Gaps over 17 minutes in this window: 0. Reading count is not a claim of complete sensor coverage.

Issued forecasts and observable outcomes

Issue time	Horizon	Forecast / actual (mg/dL)
2021-07-15T12:40:00	30 min	195.7 / Not yet observed / unavailable
2021-07-15T12:40:00	60 min	188.5 / Not yet observed / unavailable
2021-07-15T12:10:00	30 min	187.5 / 187.2
2021-07-15T12:10:00	60 min	181.9 / Not yet observed / unavailable

Unresolved reviews

#2 | ongoing_high | new | Reviewer: reviewer | Next review: None

Glucose is currently above 180 mg/dL; this is an observed state.

Care-team notes and context

2026-10-10T11:13:24.955203+00:00 [clinician] closed: evidence_reviewed. Simulated episode closed after the observed outcome was compared with the original forecast.

2026-10-10T11:13:11.692443+00:00 [clinician] follow_up_planned: evidence_reviewed. Simulated follow-up: compare the forecast with the next recorded readings.

2026-10-10T11:13:11.609979+00:00 [clinician] reviewed: evidence_reviewed. Simulated demonstration review 3: forecast evidence inspected; no patient contact or treatment occurred.

Monitoring responsibility

09:00–17:00 Asia/Kolkata; responsible reviewer: reviewer. Staffed monitoring active.
